Important conditions and limitations of the service

Inbound only

You cannot present a 1300/1800 number as your Calling Line Identification (CLI) when making outbound calls with a Breeze Connect SIP Trunking service.

International callers

While 1300/1800 numbers may be compatible with international telephone networks we cannot guarantee a successful connection.

Maximum call duration

For security reasons all calls on our network have a 3 hour connection limit and will be automatically disconnected after 3 hours.

Other information

Number porting

Breeze Connect accepts telephone numbers ported from other providers. Porting numbers from other providers may attract a porting fee per request submitted. A list of current porting fees can be found at breezeconnect.com.au/rates.

If you wish to retain your numbers when cancelling your service then you will need to port them away from Breeze Connect before asking us to cancel the service.

Complex routing schemes

Location-based routing and barring configurations will generally incur an additional set-up and monthly charge.
